Project

SOPSTING – eCommerce Website

- Developed a full-stack eCommerce platform using MongoDB, Express.js, React, and Node.js (MERN Stack).
- Implemented user authentication, product management, and secure payment integration for seamless shopping.
- Designed a responsive UI with React and Tailwind CSS to ensure a smooth user experience.
- Integrated RESTful APIs for efficient data handling and real-time order tracking.
- Used JWT-based authentication for security and Redux for state management to enhance performance.
